

K-LOVE is broadcast in my area on FM 88.1 (and in surrounding areas on other frequencies). I listen to K-LOVE daily and when I travel locally, I tune my radio to frequencies in other communities that carry K-LOVE. K-LOVE serves my needs as a resident of the local community. We have no similar radio stations to K-LOVE in our community and it would negatively impact myself and many others in my community. The programming on K-LOVE is very important to myself and many families in my community. Family programming is difficult to locate in our current society. Please ensure that K-LOVE is not replaced by an LPFM broadcaster so that myself and others can continue to benefit from K-LOVE. Thank you.
